The user must be signed in with valid credentials.

The **Scores By Class** page has an **Override Not Applicable Scores** option. This option displays on Scores By Class for a gradebook that has the Filter Assignments by option set to **Assignment Due Date** under the Manage | Options area.

Selecting **Override Not Applicable Scores** option will allow a score field that has a **Not Applicable** to be overwritten with a valid score for the student.

To override a Not Applicable score on the Scores By Class page, select the **Override Not Applicable Scores** option on the top left of the page and then click the mouse in the score field that has Not Applicable.

The score field will become editable. Enter a valid score for the student.

Test Step	Test Data	Expected Result
1. Navigate to Gradebook from the left sidebar and open Gradebook area		As expected
2. Navigate to the top of the page and click on the List dashboard to open Gradebook list		Gradebook list opened successfully

Test Step	Test Data	Expected Result
3. Click on the first gradebook name from the list to navigate to Scores By Class		Scores By Class page opened
4. Go to top left page and select the checkbox for "Override Not Applicable"		Checkbox selected
5. Go to a score field "Not Applicable" and enter a valid score to verify "Override Not Applicable" option functionality		Scored entered successfully

Assigning seats to a chart can be made with Auto Assign Seats option from the "Create New Seating Chart" menu or manually,
To assign students manually to the seats, click the mouse on the student photo in the Unassigned Seats column and use drag and drop functionality to place the photo to the desired location on the chart.

Test Step	Test Data	Expected Result
1. Open URL in Chrome browser		Login page opened successfully
2. Enter credentials in the input fields and sign in to Aeries page		User sign in successfully
3. Navigate to Attendance By Photo from the Pages navigation tree		Attendance By Photo page opened successfully
4. Go to the top right of the page and click the menu icon and open "Create New Seating Chart" form		As expected

Test Step		Test Data	Expected Result		
5. Create a chart without any students photo assigned			Chart Created		
6. Verify if "drag and drop" functionality to place the photo to the desired location on the chart works as expected			Student photo is placed on the chart successfully

To create a "New seating chart" the following options were implemented:

- **Current Period** – If selected the chart will show during the current period (Available for Period Attendance).
- **Enter a Name** – Add a name for the chart.
- **Auto Assign Seats** – This option will allow a teacher to mass assign the student photos by student name or randomly. It will also fill the photos on the chart across or down. This option will only use students who are still listed in the **Unassigned Students** column.
- **Number of Rows** – The number of rows the chart will display.
- **Number of Columns** – The number of columns the chart will display.

Number of Rows and columns must be selected so that the chart can be created

Test Step	Test Data	Expected Result
1. Open URL in Chrome browser		Login page opened successfully
2. Enter credentials in the input fields and sign in to Aeries page		User sign in successfully

Test Step	Test Data	Expected Result
3. Navigate to Attendance By Photo from the Pages navigation tree		Attendance By Photo page opened successfully
4. Go to the top right of the page and click the menu icon and open "Create New Seating Chart" form		As expected
5. Enter the chart information without selecting number of columns		As expected
6. Click the "OK" button and verify if the chart is created		Chart is not created as expected

On the "New Seating Chart" form an **Auto Assign Seats** option is available.

This option will allow a teacher to mass assign the student photos by student name or randomly.

It will also fill the photos on the chart across or down. This option will only use students who are still listed in the Unassigned Students column.

Selecting the **Auto Assign Seats** option the photos will be mass-assigned to the chart automatically.

Test Step	Test Data	Expected Result
1. Open URL in Chrome browser		Login page opened successfully
2. Enter credentials in the input fields and sign in to Aeries page		User sign in successfully
3. Navigate to Attendance By Photo from the Pages navigation tree		Attendance By Photo page opened successfully
4. Go to the top right of the page and click the menu icon		As expected

Test Step	Test Data	Expected Result
5. Select "Create New Seating Chart " option		As expected
6. Enter the chart information and select "Auto Assign Seats", and then click "OK"		As expected
7. Verify if the students photos will be assigned automatically		Students photos assigned automatically

A "Refresh Now" button is implemented to refresh the Absence totals. After attendance has been taken for a student or period, click the mouse on the "Refresh Now" button at the bottom of the page which will refresh the absence totals and update the area with the latest totals. Each time the button is clicked, it will update the date and time that the page was last refreshed.

Test Step	Test Data	Expected Result
1. Open URL in Chrome browser		Login page opened
2. Enter credentials in the input fields and sign in to Aeries page		User sign in successfully
3. Go to Attendance page from the pages navigation tree		Attendance page opened successfully
4. Go to Attendance form and submit the attendance		Attendance submitted
5. Navigate to the bottom of the page and click on the "Refresh Now" button		Button clicked
6. Verify if the Absence totals and area with the latest totals are refreshed		As expected
